

2013

Federal Employee Viewpoint Survey Results

Employees Influencing Change

Governmentwide Management Report

United States Office of
Personnel Management

A Message from the Director

Since 2002, OPM has called on Federal employees to provide their candid opinions on all aspects of their Federal employment – their supervisors, their work experience, their agency and their senior leaders. This year, 376,577 employees provided their input to the Federal Employee Viewpoint Survey (FEVS) to influence change at their agencies.

The 2013 Federal Employee Viewpoint Survey results present two very clear conclusions.

First, the Federal workforce remains resilient in the face of historic challenges. Over 90 percent continue to be willing to put in extra effort, are constantly looking for ways to do their job better, and feel their work is important. Their levels of engagement are generally holding steady despite declining satisfaction.

Second, despite the tremendous strengths and dedication shown by Federal employees, the 2013 responses demonstrate a significant drop in employee satisfaction and continue last year's declines across the majority of questions, which are cause for concern. In addition to continued decreases in satisfaction with pay, one of the biggest drops this year was whether employees had sufficient resources needed to get their jobs done. This drop contributed to fewer employees recommending their organizations as good places to work. Any employer seeing this meaningful level of decline would be very concerned.

Factors such as an unprecedented 3-year pay freeze, automatic reductions from sequester that included furloughs for hundreds of thousands of employees, and reductions in training and other areas are clearly taking their toll on the Federal workforce – and this survey was administered prior to the recent Government shutdown. The survey results serve as an important warning about the long-term consequences of the sequestration and budget uncertainty. Without a more predictable and responsible budget situation, we risk losing our most talented employees, as well as hurting our ability to recruit top talent for the future.

Finally, in addition to providing information on broad trends, the FEVS is also an important management tool that allows leaders and managers to receive feedback from their employees and to take actions to increase satisfaction and engagement with the ultimate goal of improving services to the American public. This year, agencies will receive even more granular survey results at manager levels that will allow them to identify challenges and to take specific actions.

Together, Federal employees at all levels face challenges, uncertainties, and changes. Nonetheless, we strongly believe that our agencies are good places to work and that our employees will continue to be dedicated to doing their work, serving the public in the best and most effective way.

I thank all the employees who took the time to make their voices heard and their opinions known. In doing so, they have expressed an ongoing belief in the future of a dedicated and effective Federal workforce.

Katherine Archuleta
Director

Introduction

The Federal Employee Viewpoint Survey (FEVS) is a tool that allows employees to share their perceptions in many critical areas including their work experiences, their agency, and leadership. The results of the survey provide agency leaders insight into areas where improvement has been made, as well as areas where improvements are needed. Agencies are encouraged to share innovative ideas and practices with one another in order to meet the challenges faced by the Federal Government.

Many respondents voiced concerns that the 2013 FEVS was administered during a less than ideal time. The pay freeze was extended, employee reductions and furloughs were being implemented in many agencies, medical insurance premiums, payroll tax, and employee pension contributions all increased while it appears that the public opinion of the Federal Government is on the decline.

The 2013 FEVS documents the Federal workforce's resilience and strong commitment to government – employees are willing to put in extra effort to get the job done, find ways to do their job better, and emphasize the importance and quality of their work. However, while still strong, governmentwide results have markedly decreased from 2012. The challenges faced in past years continue to be challenges: insufficient resources, recognition of performance differences, dealing with poor performers, the opportunity to get a better job in the organization, and pay satisfaction.

In a time when agencies have to do more with less, innovation and creativity are critical. Knowledge is a fundamental resource that agencies can share. Sharing successes, as well as lessons learned, with other similar agencies can help develop new programs and policies designed to target issues and increase employee satisfaction.

Change cannot happen overnight, which is why it is extremely important to continue capturing employees' views. Even less than optimal results tell a story, helping us to understand the past and formulate a plan and direction for the future.

This report will focus on multiple perspectives describing the diverse views of the Federal workforce. The top performing and most improved agencies will be identified throughout various sections of this report.

This and other reports are available on OPM's Federal Employee Viewpoint Survey website at: www.FedView.opm.gov. Detailed information on the 2013 FEVS Methods and item-by-item trend results can be found in Appendix A and B.

Did You Know?

The FEVS was first administered in 2002 as the Federal Human Capital Survey.

Results at a Glance

Strengths & Challenges*

29 items identified as strengths
(>65% positive)

Most positively rated item: When needed I am willing to put in the extra effort to get a job done. (96% positive)

8 items identified as challenges
(>35% negative)

Most negatively rated item: Pay raises depend on how well employees perform their jobs. (55% negative)

Increases & Decreases*

1 Year Trend (2012 to 2013)

 **2** items increased from 2012

(0 items increased by 5 percentage points or more)

Greatest increase: My supervisor is committed to a workforce representative of all segments of society *and* My supervisor treats me with respect. (+1 percentage points)

 **53** items decreased from 2012

(1 item decreased by 5 percentage points or more)

Greatest decrease: Considering everything, how satisfied are you with your pay? (-5 percentage points)

2 Year Trend (2011 to 2013)

 **1** item increased from 2011

(0 items increased by 5 percentage points or more)

Greatest increase: How would you rate the overall quality of work done by your work unit? (+1 percentage points)

 **67** items decreased from 2011

(20 items decreased by 5 percentage points or more)

Greatest decrease: Considering everything, how satisfied are you with your pay? (-8 percentage points)

* Work/Life Program Items (72-84) are excluded.

Index Highlights

Human Capital Assessment and Accountability Framework (HCAAF)

59% Leadership and Knowledge Management (↘ 1 percentage point from 2012)

51% Results Oriented Performance Culture (↘ 1 percentage point from 2012)

Top Agency Performers Across the Indices

Department/Large Agencies

National Aeronautics and Space Administration

Small/Independent Agencies

U.S. Trade and Development Agency

Office of Navajo and Hopi Relocation

Who Responded?

Over 376,500 employees gave their feedback and made their opinions heard for a response rate of 48.2 percent. Survey respondents include Federal employees from over 80 agencies, both Departments/Large agencies, and Small/Independent agencies. Respondents include full- and part-time, permanent, non-seasonal employees throughout the United States and worldwide. The survey provides employees of different backgrounds and across all organizational levels the opportunity to share their views and influence change in their agencies and the Federal Government. See Appendix C for the Governmentwide Respondent Characteristics.

Governmentwide and Agency Response Rates

The governmentwide response rate increased by two percentage points since 2012 (see Figure 1). Two Departments/Large agencies remain among the top five response rates since 2012: the Office of Management and Budget and the National Science Foundation. Of the Small/Independent agencies that participated in the survey the Inter-American Foundation had the highest response rate and was the only small agency new to the top five response rates since 2012. See Figures 2 and 3 for the top Department/Large agency and Small/Independent agency response rates in 2013. The complete list of agency response rates is available in Appendix D.

FIGURE 1 | Governmentwide Response Rate by Year

FIGURE 2 | Top 2013 Department/Large Agency Response Rates

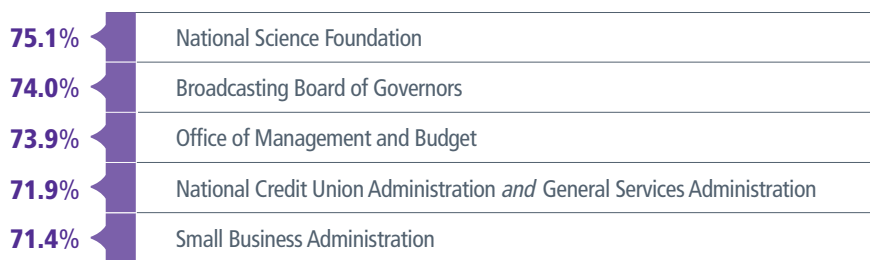

FIGURE 3 | Top 2013 Small/Independent Agency Response Rates

Response Rates by Key Demographics

As shown in Table 1, survey respondents vary in their rates of participation. Findings indicate that females are more likely to respond than males. In addition, supervisors and senior leaders respond at higher rates than non-supervisors. While the differences in participation rates are smaller across Federal tenure levels, those employees who have the shortest and longest tenure were more likely to respond to the survey than others. Examining participation rate across age ranges show that the older workforce respond in larger numbers than those in the other age ranges, particularly more so than the youngest employees. Lastly, non-minorities responded at greater rates than those in the minority population.

TABLE 1 | Response Rate by Key Demographics

Gender	Number Surveyed	Number Responded	Response Rate
Male	418,881	191,818	45.8%
Female	362,166	184,759	51.0%
Supervisory Status			
SES or Equivalent	8,066	4,626	57.4%
Supervisor	104,286	56,964	54.6%
Non-Supervisor	668,695	314,987	47.1%
Federal Tenure			
≤ 3 Years	55,301	27,010	48.8%
4-5 Years	110,345	51,670	46.8%
6-10 Years	155,304	72,344	46.6%
11-20 Years	174,671	83,183	47.6%
>20 Years	285,426	140,170	49.1%
Age			
25 and Under	10,893	3,729	34.2%
26-29 Years	36,210	14,142	39.1%
30-39 Years	148,372	63,859	43.0%
40-49 Years	218,434	104,371	47.8%
50-59 Years	260,969	135,910	52.1%
60 and Older	106,169	54,566	51.4%
Minority Status			
Minority	278,976	121,481	43.5%
Non-Minority	502,071	255,096	50.8%
Overall	781,047	376,577	48.2%

Indices

Human Capital Assessment and Accountability Framework (HCAAF)

The HCAAF indices were created to guide agencies in building high-performing organizations by providing consistent metrics for measuring progress toward HCAAF objectives. The FEVS offers one source of information for agencies to evaluate and measure the success in this framework. This section examines governmentwide and agency performance on all four indices that make up the HCAAF: Leadership & Knowledge Management, Results-Oriented Performance Culture, Talent Management, and Job Satisfaction.

Governmentwide HCAAF Performance

All four HCAAF indices decreased from 2012. Talent Management had the greatest decrease, followed by Job Satisfaction. Figure 4 shows the 2013 governmentwide results with comparisons to 2012 on all four HCAAF indices. This year the Department/Large agency and Small/Independent agency with the highest scores are highlighted to facilitate information sharing across agencies.

FIGURE 4 | HCAAF Indices – Percent Positive

Leadership & Knowledge Management Index

Indicates the extent to which employees hold their leadership in high regard, both overall and on specific facets of leadership. Index made up of items: 10, 35, 36, 51, 52, 53, 55, 56, 57, 61, 64, 66.

Talent Management Index

Indicates the extent to which employees think the organization has the talent necessary to achieve organizational goals. Index made up of items: 1, 11, 18, 21, 29, 47, 68.

Results-Oriented Performance Culture Index

Indicates the extent to which employees believe their organizational culture promotes improvement in processes, products and services, and organizational outcomes. Index made up of items: 12, 14, 15, 20, 22, 23, 24, 30, 32, 33, 42, 44, 65.

Job Satisfaction Index

Indicates the extent to which employees are satisfied with their jobs and various aspects thereof. Index made up of items: 4, 5, 13, 63, 67, 69, 70.

Agency HCAAF Performance

The HCAAF allows agencies the ability to benchmark their performance over time and compare their performance to other agencies within each of the four indices. The National Aeronautics and Space Administration (NASA) was the top performing Department/Large agency on all four indices. NASA, the Nuclear Regulatory Commission and Federal Trade Commission were the top three agencies in three of the four indices (Figure 5). See Appendix E for a full list of HCAAF index agency scores and trends from 2008.

The U.S. Trade and Development Agency was the top performing Small/Independent agency on two indices and the Surface Transportation Board scored among the top on all four indices. The top performing Small/Independent agencies are displayed in Figure 6.

FIGURE 5 | Top 2013 Department/Large Agency HCAAF Scores – Percent Positive

FIGURE 6 | Top 2013 Small/Independent Agency HCAAF Scores – Percent Positive

Did You Know?

The Federal Communication Commission had the greatest increase of the Department/Large agencies on any HCAAF Index (Leadership and Knowledge Management +6 percentage points).

Employee Engagement Index

The FEVS Employee Engagement Index is an overarching model comprised of three subfactors: Leaders Lead, Supervisors, and Intrinsic Work Experiences (see Appendix F for the list of subfactor scores by agency). The survey does not directly measure employee engagement. It does, however, cover most, if not all, of the conditions likely to lead to employee engagement. This index provides a guide to the critical components/areas that agencies can focus on to create an engaged workforce. Engaged employees are passionate, energetic, and dedicated to their job and organization, which leads to optimum organizational performance.

Governmentwide Employee Engagement Performance

As seen in Figure 7, there were slight decreases on all three subfactors of Employee Engagement. Even with these decreases, Supervisors and Intrinsic Work Experiences subfactors remain strong. This year the Department/Large agency and Small/Independent agency with the highest scores are highlighted to facilitate information sharing across agencies.

FIGURE 7 | Employee Engagement Index – Percent Positive

Agency Employee Engagement Performance

While 19 of the 37 Department/Large agencies' scores decreased, 13 agencies' scores increased from 2012. The Federal Communications Commission had the greatest increase (four percentage points) and the Department of Housing and Urban Development had the greatest decrease (five percentage points). The top performing Department/Large agencies are displayed in Figure 8. For a full list of Employee Engagement agency scores and trends from 2008 see Appendix F.

The Advisory Council on Historic Preservation and the U.S. Trade and Development Agency had the highest Employee Engagement Index score (see Figure 9). The Advisory Council on Historic Preservation had a seven percentage point increase from 2012 (77% to 84%).

FIGURE 8 | Top 2013 Department/Large Agency Employee Engagement Scores – Percent Positive

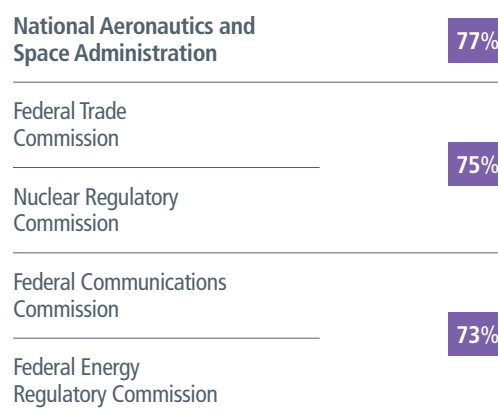

FIGURE 9 | Top 2013 Small/Independent Agency Employee Engagement Scores – Percent Positive

Did You Know?

The Small agency with the greatest increase from 2012 was the American Battle Monuments Commission (+10 percentage points).

Global Satisfaction Index

Global Satisfaction is a combination of employees' satisfaction with their job, their pay, and their organization, plus their willingness to recommend their organization as a good place to work. The Global Satisfaction Index provides a comprehensive measure of employees' overall work satisfaction. The components of this index provide the building blocks for retaining employees through inspiring a more committed workforce.

Governmentwide Global Satisfaction Performance

Overall, all four items that make up the Global Satisfaction Index have decreased by at least three percentage points since 2012 (see Figure 10). The item with the greatest decrease was pay satisfaction followed by employees recommending their organization as a good place to work. Even with these decreases, nearly two-thirds of employees report being satisfied with their jobs and recommend their organization as a good place to work. This year the Department/Large agency and Small/Independent agency with the highest scores are highlighted to facilitate information sharing across agencies.

FIGURE 10 | Global Satisfaction Index – Percent Positive

Agency Global Satisfaction Performance

Department/Large agency scores ranged from a high of 74 percent positive at the National Aeronautics and Space Administration to a low of 49 percent positive at the Department of Housing and Urban Development and the National Archives and Records. For a full list of Global Satisfaction agency scores and trends from 2008 see Appendix G.

Small/Independent agency scores ranged from a high of 88 percent positive at the Office of Navajo and Hopi Indian Relocation to a low of 29 percent positive at the Office of the U.S. Trade Representative.

Figures 11 and 12 display the top Global Satisfaction scores for both Department/Large and Small/Independent agencies.

FIGURE 11 | Top 2013 Department/Large Agency Global Satisfaction Scores – Percent Positive

National Aeronautics and Space Administration	74%
Nuclear Regulatory Commission	72%
Federal Communications Commission	71%

FIGURE 12 | Top 2013 Small/Independent Agency Global Satisfaction Scores – Percent Positive

Office of Navajo and Hopi Indian Relocation	88%
Federal Mediation and Conciliation Service	82%
Advisory Council on Historic Preservation	81%

Did You Know?

Four Department/Large agencies increased in Global Satisfaction:

- Federal Communications Commission
- Broadcasting Board of Governors
- Federal Energy Regulatory Commission
- Securities and Exchange Commission

Leveraging Results-Oriented Performance Culture

Performance culture is one key component of organizational success. It evolves out of the policies and practices of the agency, the organization's leadership at every level, and management decisions that shape the work environment. These elements impact every employee, every day. An effective performance culture encourages and motivates employees to put forth their best effort possible, while weathering changes of an uncertain environment.

This section explores the HCAAF Results-Oriented Performance Culture Index by looking at results for each item since 2012. Performance culture is a multi-dimensional concept. To identify specific areas for improvement the items that make up this index have been broadly grouped into five categories: recognition, supervision, safety, work connection, and performance. Table 2 below displays the year-to-year comparison.

TABLE 2 | Results-Oriented Performance Culture Index Items

Recognition	2012	2013	Difference
In my work unit, differences in performance are recognized in a meaningful way.	34	31	-3
Creativity and innovation are rewarded.	38	35	-3
How satisfied are you with the recognition you receive for doing a good job?	48	45	-3

Supervision	2012	2013	Difference
My supervisor supports my need to balance work and other life issues.	77	77	0
Discussions with my supervisor/team leader about my performance are worthwhile.	62	61	-1

Safety	2012	2013	Difference
Physical conditions allow employees to perform their jobs well.	67	66	-1

Work Connection	2012	2013	Difference
The people I work with cooperate to get the job done.	73	73	0
I know how my work relates to the agency's goals and priorities.	84	83	-1
Employees have a feeling of personal empowerment with respect work process.	45	43	-2

Performance	2012	2013	Difference
My performance appraisal is a fair reflection of my performance.	69	68	-1
In my work unit, steps are taken to deal with a poor performer who cannot or will not improve.	29	28	-1
Promotions in my work unit are based on merit.	34	32	-2
Pay raises depend on how well employees perform their jobs.	22	19	-3

Of the 13 items in the Results-Oriented Performance Culture Index, 11 items decreased. The recognition category showed the greatest decreases with all three items decreasing by three percentage points from 2012.

What Can Federal Managers Do?

Reversing these declining trends and making improvements in Results-Oriented Performance Culture will take time. Communicating to employees what they are doing well and what changes need to be made is one critical action that can drive effective performance management and recognition. The value of feedback is time-sensitive. Feedback, either positive or constructive when provided immediately to an employee has the most impact. The traditional mid-year and year-end reviews should hold no surprises, as these are for summarizing the day-to-day feedback provided, and mapping out a plan for continuous improvement.

Generations in the Workforce

Defining Generations

As older generations extend their tenures in the workforce and younger generations enter the workforce four different generations are working together: Traditionalists, Baby Boomers, Generation X, and Generation Y. The impact of different life experiences, historical events and where you are in your career influences values and work ethics. The values displayed below are not mutually exclusive but are traits that are commonly associated with particular generations. Understanding the core values of each generation facilitates effective communication and engagement within work units. This section uses governmentwide administrative data to group employees into each generation based on age (see Table 3).

TABLE 3 | Generation Profiles*

	Traditionalists	Baby Boomers	Generation X	Generation Y
Born	1945 or Earlier	1946 -1964	1965 -1980	1981 or later
Age	68 and Over	49 - 67	33 - 48	32 and under
Values	Hardworking, Dedicated, Loyal	Driven, Collaborative Optimistic	Seek Work/Life Balance, Independent	Ambitious, Multitask, Team-Oriented
Percent of Federal Workforce	1.7%	48.0%	37.5%	12.8%
Department/Large Agency with Highest Population	Broadcasting Board of Governors 6.8%	Railroad Retirement Board 62.1%	Securities and Exchange Commission 57.1%	Office of Management and Budget 25.4%
Small/Independent Agency with Highest Population	Nuclear Waste Technical Review Board & National Council on Disability 11.1%	Postal Regulatory Commission 97.2%	National Council on Disability 66.7%	Chemical Safety and Hazard Investigation Board 32.4%

Baby Boomers comprise almost half (48 percent) of the Federal population followed by Generation X which makes up over a third (37.5 percent). As the newest generation to enter the workforce, Generation Y is approximately 13 percent of the Federal population and as the oldest generation in the workforce, Traditionalists are less than two percent of the Federal population.

Generation Y employees are approximately a quarter of the employees at the Office of Management and Budget, which is the Department/Large agency that has the highest population of this generation. The population at the Postal Regulatory Commission is over 97 percent of Baby Boomers.

*Data from this table is from OPM's Enterprise Human Resources Integration (EHRI) and can be accessed through www.fedscope.opm.gov.

Generation Comparison

As a way to gain a better understanding of the differences and the similarities of each generation, Table 4 highlights key survey results for each of the four generations with governmentwide results as a comparison.

Traditionalists had the highest Global Satisfaction score (67 percent positive) and the highest Employee Engagement score (70 percent positive). Traditionalists also had the highest percent positive rating for most survey items including recognition, sufficient resources, and satisfaction with training, while Generation X had the lowest percent positive rating for these items. Consistent with Generation X's value for work/life balance and the idea that Baby Boomers may be caregivers for their aging parents both generations had the highest percent of employees report that they telework (27 percent). While Generation Y did not report the highest telework participation, they are the generation most satisfied (78 percent positive) with telework.

It is important for agencies to know their generational breakdown in order to create a work environment that allows each generation to use their skills effectively. It is also necessary for agencies to encourage the different generations to work and communicate with each other to improve knowledge transfer and make their agency a better place to work.

TABLE 4 | Generation Comparisons

	Traditionalists	Baby Boomers	Generation X	Generation Y	Governmentwide
Recognition for Products and Services ¹	53%	46%	45%	46%	46%
Sufficient Resources ²	54%	44%	42%	47%	44%
Satisfaction with Training ³	58%	50%	49%	51%	50%
Telework Participation ⁴	23%	27%	27%	25%	27%
Satisfaction with Telework ⁵	74%	75%	76%	78%	76%
Global Satisfaction Score	67%	59%	59%	59%	59%
Employee Engagement Score	70%	64%	64%	65%	64%

Satisfaction by Generation: What Drives Employee Satisfaction?

Satisfied and engaged employees are in high demand, as satisfied employees are more likely to enjoy the work they do and are more willing to put in extra effort to get the job done. With shrinking budgets and limited resources all during a time of uncertainty, agencies are looking for alternative approaches to help them decide where to focus their attention with the overall goal of increasing employee morale.

By taking a deeper look at the Global Satisfaction Index, this section will identify the key drivers or items that distinguish employees with high satisfaction from those with low satisfaction. This distinction will reveal the satisfaction gap, which will help agencies identify areas where they can make improvements to increase satisfaction.

¹ Employees are recognized for providing high quality products and services.

² I have sufficient resources (for example, people, materials, budget) to get my job done.

³ How satisfied are you with the training you receive for your present job?

⁴ Please select the response below that BEST describes your current teleworking situation.

⁵ How satisfied are you with the following Work/Life programs in your agency? Telework.

First, this section looks at the difference between the generation groups. Using the Global Satisfaction Index two distinct groups were identified in each generation – a high satisfaction group and a low satisfaction group.* Figure 13 below displays the percentage of survey respondents for each generational group that fell into these two satisfaction groups. Traditionalists have the highest percent of employees that fall into the high satisfaction group. As the generations get younger the percentage of employees falling into the high satisfaction group decreases.

FIGURE 13 | Satisfaction Group by Generation

	Traditionalists	Baby Boomers	Generation X	Generation Y
High Satisfaction Group	51%	41%	40%	40%
Low Satisfaction Group	6%	9%	10%	10%

Next, this section will explore what drives the satisfaction gap, or the difference between the two groups, by calculating a gap score for each survey item. The gap score was calculated for each item by subtracting the percent positive scores of the high satisfaction group from the scores of the low satisfaction group. Large gaps reveal areas of challenge within the agency that keep employees from achieving maximum satisfaction.

Table 5 displays the top five items with the highest gap score for each generation. When examining the satisfaction gap by the four generations, we find involvement in decisions that affect their work to be the biggest influence that differentiates those with high satisfaction from those with low satisfaction for Traditionalists, Baby Boomers, and Generation X. Generation Y’s greatest difference lies with being given the opportunity to improve their skills.

Identifying the greatest gap provides agencies the ability to better define areas where they should focus their attention toward making improvements to increase satisfaction. Overall, we find three factors that differentiate employees with high satisfaction from those with low satisfaction: Partnership—relationship between employees and their agency, Leadership—employees willingness to follow you during these uncertain times, and Development—investing in the potential of your employees. The five largest distinguishing survey items for the Federal workforce are:

- Satisfaction with involvement in decisions that affect their work (Partnership)
- Level of respect for senior leaders (Leadership)
- Opportunity to improve their skills in organization (Development)
- Organizations leaders honesty and integrity (Leadership)
- Their talents are being used in the workplace (Partnership)

Agencies can use this information to appropriately plan an approach to decrease the satisfaction gaps within their workforce. Potentially, a multidimensional approach may prove most beneficial as what works best for one generation may not work for another.

* The satisfaction groups were determined by summing the scores for each item in the global satisfaction index (5=Very Satisfied, 4=Satisfied, 3=Neither Satisfied nor Dissatisfied, 2=Dissatisfied, 1=Very Dissatisfied), only respondents who answered all four items in the index were included. The high satisfaction group are respondents who scored 16 or higher and the low satisfaction group are respondents who scored 8 or lower. Note, respondents who scored between 8 and 16 were not included.

TABLE 5 | Top 2013 Items with Greatest Gap by Generation – Percent Positive

Traditionalists	High Sat. Group	Low Sat. Group	Gap
How satisfied are you with your involvement in decisions that affect your work?	82%	2%	80
I have a high level of respect for my organization's senior leaders.	84%	6%	79
Overall, how good a job do you feel is being done by the manager directly above your immediate supervisor/team leader?	87%	8%	79
I am given a real opportunity to improve my skills in my organization.	88%	8%	78
How satisfied are you with the information you receive from management on what's going on in your organization?	80%	3%	77

Baby Boomers	High Sat. Group	Low Sat. Group	Gap
How satisfied are you with your involvement in decisions that affect your work?	81%	5%	76
I have a high level of respect for my organization's senior leaders.	81%	7%	74
My organization's leaders maintain high standards of honesty and integrity.	82%	9%	73
I am given a real opportunity to improve my skills in my organization.	86%	13%	73
My talents are used well in the workplace.	86%	13%	73

Generation X	High Sat. Group	Low Sat. Group	Gap
How satisfied are you with your involvement in decisions that affect your work?	80%	6%	74
I have a high level of respect for my organization's senior leaders.	81%	8%	73
I am given a real opportunity to improve my skills in my organization.	86%	13%	73
My organization's leaders maintain high standards of honesty and integrity.	81%	9%	72
My talents are used well in the workplace.	84%	13%	71

Generation Y	High Sat. Group	Low Sat. Group	Gap
I am given a real opportunity to improve my skills in my organization.	88%	14%	74
I have a high level of respect for my organization's senior leaders.	83%	11%	72
My work gives me a feeling of personal accomplishment.	90%	18%	72
My organization's leaders maintain high standards of honesty and integrity.	84%	12%	72
My agency is successful at accomplishing its mission.	95%	25%	70

Supporting Diversity

The actions of the Federal Government—promoting an inclusive workforce offering a multitude of unique employee experiences, perspectives and knowledge—demonstrates that it values, emphasizes, and supports diversity in the broadest sense. Historically, diversity was viewed through a narrow lens focusing primarily on physical characteristics such as gender, race and age; recently the lens has expanded focusing on other types of diversity in addition to traditional demographic characteristics. Beginning in 2012 and carried forward into 2013, three new demographic items were added to the Federal Employee Viewpoint Survey (FEVS); Veteran Status, the Lesbian, Gay, Bisexual, Transgender (LGBT) Community, and People with Disabilities.

This section provides an overview of findings for and comparisons within each of the three diversity groups (veterans and non-veterans; LGBT and heterosexual/straight; people with disabilities and people without disabilities). Key items with the largest differences are highlighted throughout. These items are displayed with the intention of bringing attention to potential areas of concern and to encourage agencies to explore these findings at the agency level.

Why Is It Important to Examine Diversity?

Hiring initiatives, executive orders, court rulings and the press have recently put veterans, the LGBT community, and people with disabilities in the spotlight. As a result there is an increasing need to better understand these three diversity groups. In order to meet this challenge it is critical that the Federal Government as well as the FEVS continuously evolve. Figure 14 displays an overview of these groups in the Federal workforce, followed by more in-depth findings for each group.

FIGURE 14 | Snapshot of Diversity in the Federal Workforce

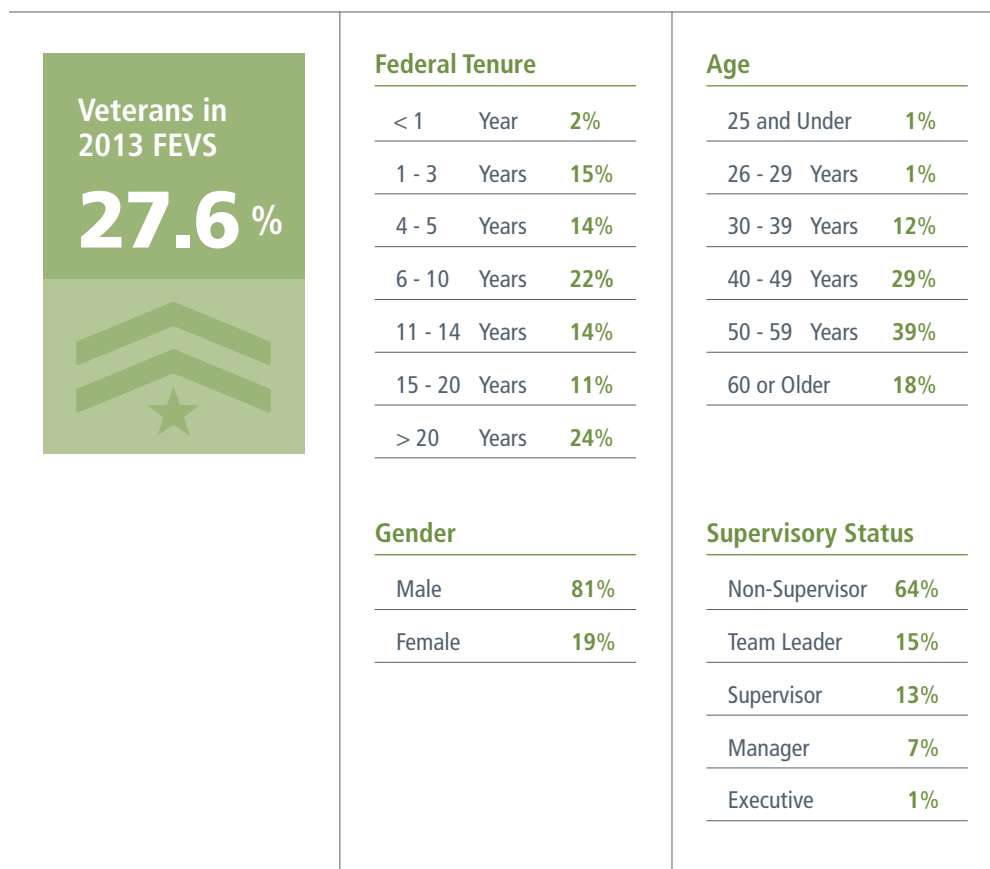

Veterans

In support of the veteran hiring and retention initiatives, such as Executive Order 13518⁶ signed in 2010, the FEVS started collecting data on veterans status. Understanding the unique characteristics of the veteran population is critical in developing and maintaining effective policies and programs that meet the needs of veterans. With this ongoing focus on veterans in the workforce and the encouragement of agencies across government to ensure fair treatment and equal opportunity, this section offers a snapshot of who these veterans are, where they work, and how their opinions may differ from non-veterans in the workforce.

As shown in Figure 15, the majority of veterans are between 40-50 years old, male, and non-supervisors. Veterans' Federal tenure is more evenly distributed, with the highest percentage reporting tenure of more than 20 years.

FIGURE 15 | Demographic Profile for Veterans in the 2013 FEVS

Did You Know?

The percentage of veterans in the Federal workforce is very similar in both the 2013 FEVS results (28%) and findings from Feds Hire Vets⁷ (27%).

⁶ More detailed information on Executive Order 13518 can be found: <http://www.whitehouse.gov/the-press-office/executive-order-veterans-employment-initiative>

⁷ More detailed information on Feds Hire Vets can be found: <http://www.fedshirevets.gov>

Figure 16 displays the top five non-defense agencies with the highest proportion of veteran employees. These five agencies vary greatly in size and mission. The Department of Defense is presented for comparison.

FIGURE 16 | Non-Defense Agencies with the Highest Percentage of Veteran Employees*

Several of the items with the greatest differences in percent positive results between veterans and non-veterans are listed in Table 6. Some of the greatest differences were found in items related to the fairness of organizational practices and relationships with supervisors, with veterans' results consistently lower than non-veterans' results. Lower results surrounding a specific theme suggest a potential area for improvement, and in this case the results show that veterans' perceptions of fairness in organizational practices and their relationships with supervisors are areas that could be improved. When compared to non-veterans, 53 items were lower for the veterans group.

TABLE 6 | Comparison of Survey Results for Veterans & Non-Veterans – Percent Positive

	Veterans	Non-Veterans	Difference
Promotions in my work unit are based on merit.	29%	34%	-5%
In the last six months, my supervisor/team leader has talked with me about my performance.	74%	79%	-5%
Prohibited Personnel Practices are not tolerated.	63%	67%	-4%
Policies and programs promote diversity in the workplace.	53%	57%	-4%
Managers communicate the goals and priorities of the organization.	59%	63%	-4%
Supervisors/team leaders in my work unit support employee development.	62%	65%	-3%

Did You Know?

29 percent of veterans reported having a disability, as opposed to only 7 percent of non-veterans.

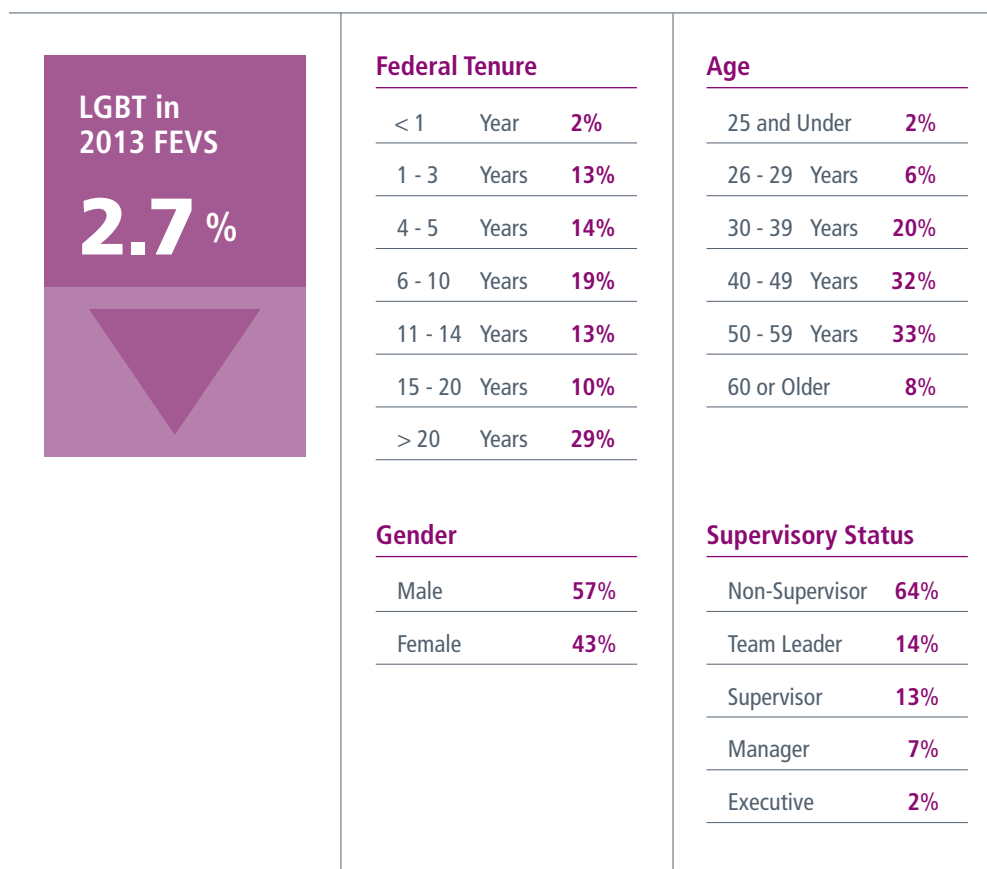

*Small agencies that have 50 or more eligible employees had the option to include the demographic section on the survey.

Lesbian, Gay, Bisexual or Transgender

In June of 2013, the Supreme Court of the United States ruled Section 3 of the Defense of Marriage Act unconstitutional⁸; thereby extending more than 1,100 Federal benefits⁹ and rights to legally married gay and lesbian couples. With this ruling, and attention surrounding issues such as “Don’t Ask, Don’t Tell” and Proposition 8, the time has never been more compelling to listen to the voices of the Federal LGBT community.

The FEVS asked employees if they identify as lesbian, gay, bisexual, or transgender (LGBT), or as heterosexual/straight. In addition, respondents were given the option to respond “I prefer not to say.” This year, almost 9,000 Federal employees identified as LGBT, representing approximately three percent of the Federal workforce. The highest percentage of those who identified as LGBT have been in the Federal Government for more than 20 years and nearly two-thirds of these employees are between the ages of 40-59 (see Figure 17).

FIGURE 17 | Demographic Profile for LGBT

⁸ More information on the Defense of Marriage Act ruling can be found: http://www.supremecourt.gov/opinions/12pdf/12-307_6j37.pdf

⁹ More details can be found in the GAO-04-353R Defense of Marriage Act Report: <http://www.gpo.gov/fdsys/pkg/GAOREPORTS-GAO-04-353R/pdf/GAOREPORTS-GAO-04-353R.pdf>

Table 7 displays several of the items with the greatest differences in percent positive results between LGBT employees and heterosexual/straight respondents. These items present a clear picture of the potential areas of concern for this group. People who identified as LGBT were less likely than heterosexual respondents to positively rate items related to perceptions of leadership, job satisfaction, and feeling empowered on the job. Of note, 69 items were lower for the LGBT community, mirroring the findings for the veteran population.

TABLE 7 | Comparison of Survey Results for LGBT & Heterosexual/Straight – Percent Positive

	LGBT	Heterosexual/ Straight	Difference
Managers promote communication among different work units.	47%	54%	-7%
I have a high level of respect for my organization’s senior leaders.	48%	54%	-7%
Managers support collaboration across work units to accomplish work objectives.	51%	58%	-7%
Considering everything, how satisfied are you with your job?	61%	67%	-6%
Senior leaders demonstrate support for Work/Life programs.	49%	55%	-6%
Employees have a feeling of personal empowerment with respect to work processes.	39%	45%	-6%

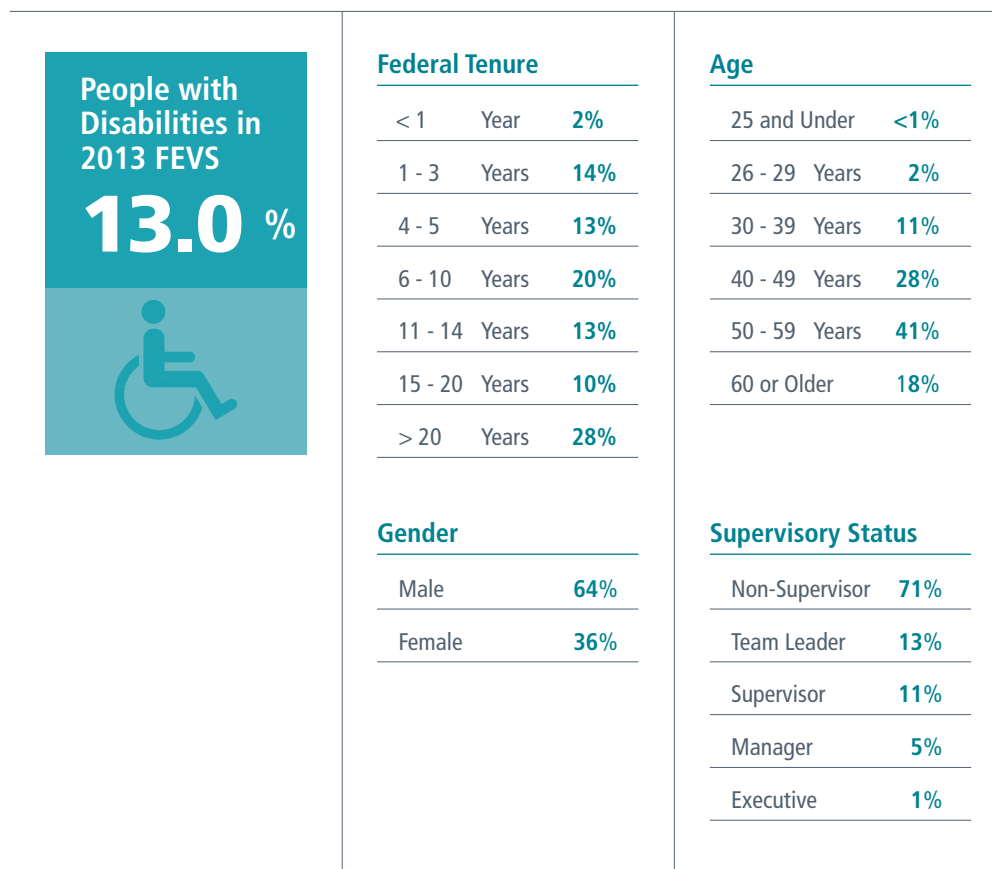

Did You Know?

Results for those who identify as LGBT were 5 percentage points lower than for those who identified as Heterosexual/Straight on both the Employee Engagement and Job Satisfaction Indices, and 4 points lower on the Global Satisfaction Index.

People with Disabilities

In 2010, President Obama signed Executive Order 13548¹⁰, designed to reduce discrimination against those with disabilities, eliminate stigma, and encourage those with disabilities to actively seek employment with the Federal Government. In turn, the Federal Government is becoming the model on how to effectively recruit, hire and retain people with disabilities. During this year's FEVS administration, 13 percent of employees indicated they have a disability (see Figure 18). Now that the Federal Government has reaffirmed its commitment to hiring people with disabilities and has moved towards its goal of non-discriminatory methods in hiring, it is important to acknowledge this population of employees and their opinions and characteristics.

FIGURE 18 | Demographic Profile for People with Disabilities

¹⁰ More detailed information on Executive Order 13548 can be found: <http://www.gpo.gov/fdsys/pkg/FR-2010-07-30/pdf/2010-18988.pdf>

Key survey items with the largest differences between people with disabilities and those who did not report a disability are presented in Table 8. These items revolve around the themes of fairness in organizational practices and opportunities for employee development. Several of the employee development items were nearly ten percentage points lower for people with disabilities, strongly indicating a perceived deficiency in this area. Following the same pattern found for veterans and the LGBT community, most results for people with disabilities were lower than the comparison group (69 items).

TABLE 8 | Comparison of Survey Results for People with & without Disabilities – Percent Positive

	People with Disabilities	People Who Did Not Indicate a Disability	Difference
Prohibited Personnel Practices are not tolerated.	55%	68%	-13%
My supervisor/team leader provides me with opportunities to demonstrate my leadership skills.	57%	66%	-9%
I am given a real opportunity to improve my skills in my organization.	53%	61%	-8%
Supervisors/team leaders in my work unit support employee development.	58%	65%	-7%
Arbitrary action, personal favoritism and coercion for partisan political purposes are not tolerated.	45%	52%	-7%
Managers/supervisors/team leaders work well with employees of different backgrounds.	57%	64%	-7%

Evolving Diversity in the Federal Government

Although these three groups appear to be very different, the results reveal that there are themes both within the groups and across all three groups. The items in each comparison section were chosen based on the magnitude of the difference in the item percent positive scores between people who identified as a member of the group and those who did not.

Common themes that emerged among all groups were perceptions of leadership and support from managers/supervisors. Agency leaders should take note of these findings, especially given the effort to increase hiring and retention across all groups. Understanding the perspective and feedback from all diversity groups is critical in meeting the needs of employees and ensuring that the Federal Government is a workplace of choice for all people.

Did You Know?

The greatest differences of all three diversity groups were found when comparing results for people with disabilities and people who did not indicate a disability.

Employees Influencing Change

Employees are the most valuable asset in the Federal Government. Their thoughts and opinions need to be heard. The FEVS is a useful tool for gathering information, empowering employees, and inspiring change, however, this tool is only as effective as the actions agencies take based on the survey results. Agencies must listen to what their employees are saying, implement action plans to improve performance, and convey to their employees the connection between the survey results and the positive actions made by their agency.

This section starts the process of the sharing of information and practices between agencies. Innovative and creative ideas based on survey results will help agencies to improve policies and practices, retain valued employees, and improve the Federal Government as a whole.

Change Into Action

Agencies have shared the practices or actions they took to improve several areas based on their FEVS results. Highlighted below are two agencies that have used employee feedback to create and implement actions in order to make their agency a better place to work. Table 9 and Table 10 display the targeted areas where action was taken to make improvements. Also, displayed are survey items related to the targeted area.

TABLE 9 | National Aeronautics and Space Administration (NASA)

Targeted Area	Action	Outcome	Related Survey Items
Leadership Support for Work/Life Balance	<ul style="list-style-type: none"> Rebranded telework as “Work from Anywhere.” Created an educational messaging approach touching all layers of the organization. 	<ul style="list-style-type: none"> Leadership and employees have shared understanding of the scope of telework/ “Work from Anywhere.” Noteworthy increase in employee perceptions of senior leadership support for work/life issues. 	My supervisor supports my need to balance work and other life issues.
			Senior leaders demonstrate support for work/life programs.
			Have you been notified that you are eligible to Telework?
Using Employee Input	<ul style="list-style-type: none"> Targeted communication to all levels of leadership regarding connecting improvements made to specific survey results. Supervisors and managers discuss the value of employee input from surveys, and explain to employees how the survey results were used to make agency-wide improvements. 	<ul style="list-style-type: none"> Employees are more engaged and feel a part of agency change. 	I believe the results of this survey will be used to make my agency a better place to work.
			How satisfied are you with your involvement in decisions that affect your work?

The actions NASA implemented were successful toward making improvements within the agency; in each area NASA targeted there was a positive increase from 2012 to 2013 in related survey items. NASA was most successful in the targeted area of utilizing employee input. As a result, positive responses about “survey results will be used to make the agency better” increased by four percentage points, compared to the governmentwide average this item decreased by four percentage points.

USDA's actions targeted toward leadership support for Work/Life balance were successful; there was a 13 percentage point increase from 2012 in the number of employees who reported they had been notified they were eligible to telework. While employee positive responses at USDA remained consistent from 2012 regarding diversity this is noteworthy particularly when compared to the governmentwide average which decreased two percentage points.

TABLE 10 | Department of Agriculture (USDA)

Targeted Area	Action	Outcome	Related Survey Items
Leadership Support for Telework	<ul style="list-style-type: none"> • “Let’s Talk Telework” a webinar series for supervisors on how to implement telework. • Supervisory training on overcoming biases related to telework and how to manage employees who are teleworking. 	<ul style="list-style-type: none"> • Increase in the percentage of employees indicating telework eligibility. • Increase in employees participating in regular and recurring telework. 	My supervisor supports my need to balance work and other life issues.
			Have you been notified that you are eligible to Telework?
			Please select the response below that BEST describes your current teleworking situation.
Recruiting a Diverse Workforce	<ul style="list-style-type: none"> • Strategies for improving diversity and inclusion agency-wide. • Training for recruiters and hiring managers emphasizing the value of a diverse and inclusive workforce. • Diversity and inclusion incorporated into the performance standards for leadership. 	<ul style="list-style-type: none"> • An increase in the hiring of veterans and minorities, as measured by agency hiring data. 	My supervisor is committed to a work-force representative of all segment of society.
			Policies and programs promote diversity in the workplace.

The actions outlined in this section are just a sampling of the many successful actions agencies across the Federal Government have taken to improve their work environments. In a time when resources are limited, the need for agencies to communicate and share practices with one another is critical. Working smarter by learning from other agencies and adapting innovative ideas throughout government will help all agencies achieve a more engaged workforce.

Does your agency have any practices to share? If so, please send an email to evs@opm.gov.

Conclusion

Employees Influencing Change – this is the core purpose of the Federal Employee Viewpoint Survey. From 2002 to 2013, Federal employees in all occupations and at all organizational levels have provided their opinions to leadership. The survey is a powerful tool for evaluating issues and driving success inside an agency, as well as a springboard for the sharing of ideas, practices and innovative methods with other agencies. The results of the survey enable agencies to identify areas where problems have been addressed, as well as areas where improvements are needed. Agencies can look across the years to better understand how internal and external forces have affected their workforce.

This year, the survey results continued the gradual slide first signaled by the 2012 results. All four HCAAF indices, the Employee Engagement Index, and Global Satisfaction index have declined from 2012 to 2013. Ongoing budget cuts, pay freezes and the threats of government shutdown stoke a future of uncertainty that affects each and every Federal employee. In this environment, what is most positive is that overall results have not declined precipitously. The Federal workforce is strong and resolute in their belief that the work they do is important. Federal employees continue to put in the extra effort to get the job done and remain committed to the missions of their organizations. They hold fast to their belief in serving the American public to the best of their abilities.

The items that had notable governmentwide increases dealt with workplace flexibilities and respect from supervisors. Specifically, supervisory support for balancing work and other life issues, employees feeling respected by their managers, and employee satisfaction with telework programs were the only items showing improvement at a governmentwide level. While managers are limited in their ability to provide financial awards and incentives to employees, efforts to support employees using levers under their control such as workplace flexibilities is notable.

In summary, the 2013 FEVS shows a strong and resolute group of employees, who are devoted to their agency and country, but are growing weary due to current policies and practices affecting agency operations and resources.

Appendix A

2013 Federal Employee Viewpoint Survey Methods

What Types of Questions are Included in the Survey?

The 2013 survey is identical to the 2012 version. The 98-item survey includes 84 items that measure Federal employees' perceptions about how effectively agencies manage their workforce, as well as 14 demographic items.

The survey is grouped into eight topic areas:

- Personal Work Experiences
- Work Unit
- Agency
- Supervisor/Team Leader
- Leadership
- Satisfaction
- Work/Life Programs
- Demographics

Who Participated?

Full-time and part-time permanent, non-seasonal employees were eligible to participate in the survey.

How Many Employees Participated?

Employees from 81 agencies, 37 departments/large agencies and 44 small/independent agencies, participated in this year's survey. Of the 781,047 employees who received the FEVS, 376,577 completed the survey for a governmentwide response rate of 48.2 percent.

How Was the Survey Administered?

The survey was a self-administered Web survey.

When Were Employees Surveyed?

Agency launch dates were organized in two waves this year, with approximately 6-week administration periods beginning April 23rd and April 30th.

Data Weighting

Data collected from the 2013 survey respondents were weighted to produce survey estimates that accurately represent the survey population. Unweighted data could produce biased estimates of population statistics. The weights developed for the 2013 FEVS take into account the variable probabilities of selection across the sample domains, nonresponse, and known demographic characteristics of the survey population. Thus, the final data set reflects the agency composition and demographic makeup of the Federal workforce within plus or minus 1 percentage point.

Data Analysis

In performing statistical analyses for this report, OPM employed a number of grouping procedures to simplify presentations. Most of the items had six response categories: Strongly Agree, Agree, Neither Agree nor Disagree, Disagree, Strongly Disagree, and No Basis to Judge/Do Not Know. In some instances, these responses are collapsed into one positive category (Strongly Agree and Agree), one negative category (Strongly Disagree and Disagree), and a neutral category (Neither Agree nor Disagree). We conducted analyses on all survey items for the various demographic categories. More detailed survey statistics are available in the published Federal Employee Viewpoint Survey Data volumes for this survey and can be downloaded from OPM's Federal Employee Viewpoint Survey website: www.FedView.opm.gov.

"Do Not Know" and "No Basis to Judge" Responses

Responses of Do Not Know/No Basis to Judge were removed before calculation of percentages. In 2006 and 2008, all responses were included in the calculations. To ensure comparability, data from previous years were recalculated, removing Do Not Know/No Basis to Judge responses, before any calculations with prior survey data were carried out.

Index Development

The 2013 FEVS includes six indices: the four HCAAF (Human Capital Assessment and Accountability Framework) Indices, the Employee Engagement Index, and the Global Satisfaction Index. These indices provide a dependable and consistent method for Federal agencies to assess different facets of the workforce.

HCAAF Indices

The HCAAF Indices were developed to help agencies meet the requirements of OPM's mandate under the Chief Human Capital Officers Act of 2002 to design systems, set standards, and development metrics for assessing the management of Federal employees. The FEVS provides supplementary information to evaluate Leadership & Knowledge Management, Results-Oriented Performance Culture, and Talent Management, and provides an additional index on Job Satisfaction.

The Index scores were calculated by averaging the percent positive responses on the items within the Index. For example, if the item-level percent positive responses for a four-item Index were 20 percent, 40 percent, 60 percent, and 80 percent, the HCAAF rating would be the average of these four percentages ($20 + 40 + 60 + 80$) divided by $4 = 50$ percent.

Employee Engagement Index

The Employee Engagement Index was developed using a combination of theory and statistical analysis. Several items from the FEVS were selected based on a rationalization they would be representative of dimensions similar to other engagement "driver" measures. Items which used a satisfaction scale were excluded so as to differentiate between satisfaction and engagement.

An initial exploratory factor analysis revealed three factors consisting of 16 items (Leaders Lead, Supervision, and Intrinsic Work Experiences) with a single, underlying factor (Conditions Conducive to Employee Engagement). A confirmatory factor analysis was repeated with an independent dataset, which further supported the three-factor model. One item was removed for theoretical and statistical reasons, resulting in the 15-item, three-factor model.

Global Satisfaction Index

OPM created the Global Satisfaction Index to provide a more comprehensive indicator of employees' overall work satisfaction. The index is a combination of employees' satisfaction with their job, their pay, and their organization, plus their willingness to recommend their organization as a good place to work.

Appendix B

(For Excel version click here)

Trend Analysis: 2010 vs. 2011 vs. 2012 vs. 2013 Results

Appendix D consists of a set of trend tables displaying the governmentwide percent positive results for each item for the last four survey administrations. The last column indicates whether or not there were significant increases, decreases, or no changes in positive ratings from 2010 to 2011 (first arrow), from 2011 to 2012 (second arrow), and from 2012 to 2013 (last arrow). Arrows slanting up indicate a statistically significant increase, and arrows slanting down indicate a statistically significant decrease. Horizontal arrows indicate the change was not statistically significant. For example, symbols →↗↗ indicate there was no significant change in positive ratings from 2010 to 2011, but there was a significant increase in positive ratings from 2011 to 2012, and from 2012 to 2013. Similarly, symbols ↘→→ indicate there was a significant decrease from 2010 to 2011, but there were no significant changes in positive ratings from 2011 to 2012 or from 2012 to 2013.

APPENDIX B | Trend Analysis

	Percent Positive				Significant Trends
	2010	2011	2012	2013	
My Work Experience					
#1. I am given a real opportunity to improve my skills in my organization.	66	65	63	60	→ ↘ ↘
2. I have enough information to do my job well.	73	73	72	70	→ ↘ ↘
3. I feel encouraged to come up with new and better ways of doing things.	60	59	58	56	→ ↘ ↘
#4. My work gives me a feeling of personal accomplishment.	75	74	72	70	↘ ↘ ↘
#5. I like the kind of work I do.	86	85	84	83	↘ ↘ ↘
6. I know what is expected of me on the job.	81	80	80	79	→ → ↘
#7. When needed I am willing to put in the extra effort to get a job done.	97	97	96	96	→ ↘ ↘
8. I am constantly looking for ways to do my job better.	92	92	91	90	→ ↘ ↘
9. I have sufficient resources (for example, people, materials, budget) to get my job done.	50	48	48	44	↘ → ↘
#10. My workload is reasonable.	59	59	59	57	→ → ↘
#11. My talents are used well in the workplace.	60	61	59	57	→ ↘ ↘
#12. I know how my work relates to the agency's goals and priorities.	84	85	84	83	→ ↘ ↘
#13. The work I do is important.	92	92	91	90	→ ↘ ↘
#14. Physical conditions (for example, noise level, temperature, lighting, cleanliness in the workplace) allow employees to perform their jobs well.	67	67	67	66	→ → ↘
#15. My performance appraisal is a fair reflection of my performance.	68	70	69	68	↗ ↘ ↘
16. I am held accountable for achieving results.	84	84	83	81	→ ↘ ↘
17. I can disclose a suspected violation of any law, rule or regulation without fear of reprisal.	62	63	61	61	↗ ↘ ↘
#18. My training needs are assessed.	54	54	53	50	→ ↘ ↘

Note: Items included on the Annual Employee Survey are noted by a double dagger (#). An "NA" indicates that the item was not included in the survey that year or there were too few respondents to conduct trend analyses.

APPENDIX B | Trend Analysis (cont'd)

	Percent Positive				Significant Trends
	2010	2011	2012	2013	
‡19. In my most recent performance appraisal, I understood what I had to do to be rated at different performance levels (for example, Fully Successful, Outstanding).	68	69	68	68	→ ↓ →

Leadership					
‡53. In my organization, leaders generate high levels of motivation and commitment in the workforce.	44	45	43	41	→ ↘ ↘
54. My organization's leaders maintain high standards of honesty and integrity.	56	57	55	54	↗ ↘ ↘
‡55. Managers/supervisors/team leaders work well with employees of different backgrounds.	64	65	63	63	↗ ↘ ↘
‡56. Managers communicate the goals and priorities of the organization.	64	64	62	61	→ ↘ ↘
‡57. Managers review and evaluate the organization's progress toward meeting its goals and objectives.	64	64	62	61	→ ↘ ↘
58. Managers promote communication among different work units (for example, about projects, goals, needed resources).	54	55	53	52	↗ ↘ ↘
59. Managers support collaboration across work units to accomplish work objectives.	58	58	57	56	→ ↘ ↘
60. Overall, how good a job do you feel is being done by the manager directly above your immediate supervisor/team leader?	57	58	58	57	→ → ↘
‡61. I have a high level of respect for my organization's senior leaders.	56	57	54	52	↗ ↘ ↘
62. Senior leaders demonstrate support for Work/Life programs.	55	55	54	54	→ ↘ ↘

Note: Items included on the Annual Employee Survey are noted by a double dagger (‡). An "NA" indicates that the item was not included in the survey that year or there were too few respondents to conduct trend analyses.

APPENDIX B | Trend Analysis (cont'd)

	Percent Positive				Significant Trends
	2010	2011	2012	2013	
My Satisfaction					
‡63. How satisfied are you with your involvement in decisions that affect your work?	55	53	52	50	↘ ↘ ↘
‡64. How satisfied are you with the information you receive from management on what's going on in your organization?	51	51	48	48	→ ↘ ↘
‡65. How satisfied are you with the recognition you receive for doing a good job?	52	51	48	45	↘ ↘ ↘
‡66. How satisfied are you with the policies and practices of your senior leaders?	45	46	43	41	→ ↘ ↘
‡67. How satisfied are you with your opportunity to get a better job in your organization?	42	40	36	34	↘ ↘ ↘
‡68. How satisfied are you with the training you receive for your present job?	56	55	54	50	→ ↘ ↘
‡69. Considering everything, how satisfied are you with your job?	72	71	68	65	→ ↘ ↘
‡70. Considering everything, how satisfied are you with your pay?	66	62	59	54	↘ ↘ ↘
‡71. Considering everything, how satisfied are you with your organization?	62	62	59	56	→ ↘ ↘
Work/Life Programs					
79-84. How satisfied are you with the following Work/Life programs in your agency?*					
79. Telework	—	70	73	76	NA ↗ ↗
80. Alternative Work Schedules (AWS)	—	89	89	89	NA ↘ →
81. Health and Wellness Programs (for example, exercise, medical screening, quit smoking programs)	—	81	80	80	NA ↘ ↘
82. Employee Assistance Program (EAP)	—	78	76	74	NA ↘ ↘
83. Child Care Programs (for example, daycare, parenting classes, parenting support groups)	—	73	72	70	NA → ↘
84. Elder Care Programs (for example, support groups, speakers)	—	67	68	66	NA → ↘

* The 2011-2013 work/life program satisfaction results only include employees who indicated that they participated in the program. Because participation questions were new in 2011, percentages from 2010 are not displayed.

Note: Items included on the Annual Employee Survey are noted by a double dagger (‡). An "NA" indicates that the item was not included in the survey that year or there were too few respondents to conduct trend analyses.

The Leadership & Knowledge Management Index indicates the extent to which employees hold their leadership in high regard, both overall and on specific facets of leadership. It is made up of items:

- 10. My workload is reasonable.
- 35. Employees are protected from health and safety hazards on the job.
- 36. My organization has prepared employees for potential security threats.
- 51. I have trust and confidence in my supervisor.
- 52. Overall, how good a job do you feel is being done by your immediate supervisor/team leader?
- 53. In my organization, leaders generate high levels of motivation and commitment in the workforce.
- 55. Managers/supervisors/team leaders work well with employees of different backgrounds.
- 56. Managers communicate the goals and priorities of the organization.
- 57. Managers review and evaluate the organization's progress toward meeting its goals and objectives.
- 61. I have a high level of respect for my organization's senior leaders.
- 64. How satisfied are you with the information you receive from management on what's going on in your organization?
- 66. How satisfied are you with the policies and practices of your senior leaders?

APPENDIX E2 | HCAAF Index Trends: Results-Oriented Performance Culture (cont'd)

	2008	2010	2011	2012	2013
Governmentwide	54	54	54	52	51
Pension Benefit Guaranty Corporation	59	63	61	57	54
Railroad Retirement Board	55	55	55	56	56
Securities and Exchange Commission	53	50	47	48	49
Small Business Administration	54	53	54	53	54
Social Security Administration	54	54	56	52	50
U.S. Agency for International Development	58	54	53	53	51

The Results-Oriented Performance Culture Index indicates the extent to which employees believe their organizational culture promotes improvement in processes, products and services and organizational outcomes. It is made up of items:

- 12. I know how my work relates to the agency's goals and priorities.
- 14. Physical conditions (for example, noise level, temperature, lighting, cleanliness in the workplace) allow employees to perform their jobs well.
- 15. My performance appraisal is a fair reflection of my performance.
- 20. The people I work with cooperate to get the job done.
- 22. Promotions in my work unit are based on merit.
- 23. In my work unit, steps are taken to deal with a poor performer who cannot or will not improve.
- 24. In my work unit, differences in performance are recognized in a meaningful way.
- 30. Employees have a feeling of personal empowerment with respect to work processes.
- 32. Creativity and innovation are rewarded.
- 33. Pay raises depend on how well employees perform their jobs.
- 42. My supervisor supports my need to balance work and other life issues.
- 44. Discussions with my supervisor/team leader about my performance are worthwhile.
- 65. How satisfied are you with the recognition you receive for doing a good job?

APPENDIX E3 | HCAAF Index Trends: Talent Management (cont'd)

	2008	2010	2011	2012	2013
Governmentwide	60	60	60	59	56
Pension Benefit Guaranty Corporation	64	68	67	63	60
Railroad Retirement Board	55	57	55	58	58
Securities and Exchange Commission	59	53	51	57	60
Small Business Administration	55	50	53	52	52
Social Security Administration	59	61	62	59	55
U.S. Agency for International Development	60	56	58	60	58

The Talent Management Index indicates the extent to which employees think the organization has the talent necessary to achieve organizational goals. It is made up of items:

- 1. I am given a real opportunity to improve my skills in my organization.
- 11. My talents are used well in the workplace.
- 18. My training needs are assessed.
- 21. My work unit is able to recruit people with the right skills.
- 29. The workforce has the job-relevant knowledge and skills necessary to accomplish organizational goals.
- 47. Supervisors/team leaders in my work unit support employee development.
- 68. How satisfied are you with the training you receive for your present job?
