Mr. Ahuja concluded his report by informing the Board that MetLife has challenged its significant financial institution designation issued by the Treasury Department; however, Mr. Ahuja believes this will not impact the annuities issued to participants.

e. Audit Status

Mr. Ahuja reported that there were ninety-nine open audit findings in September 2014, and during the last quarter from October to December, no changes occurred regarding the closure of audit findings due to no audit reports being issued. See “Quarterly Summary of Audit Recommendations” (attached). Mr. Ahuja stated that almost two-thirds of the audit recommendations are considered closed by the Agency, and thirteen audit recommendations closed during the last quarter. Mr. Ahuja concluded his report informing the Board that the Agency remains on track to close its audit findings by the end of 2015.

Chairman Kennedy asked how many audit recommendations would close in the first six months of 2015. Mr. Ahuja responded that about 75 to 80 percent would be closed. Member Jasien and Chairman Kennedy requested that Mr. Long keep the Board informed of the Agency’s progress regarding audit discussions with the Department of Labor.

Ms. Crowder stated that the plan received $26.4 billion in contributions, an increase of $669 million from 2013. She also stated that the plan ended 2014 with $439.6 billion in assets under management, an increase of $42.6 billion from 2013. Ms. Crowder concluded by informing the Board that the plan had $167 million increase in net cash flow from 2013.

5. Project Prioritization Overview.

Ms. Wilder introduced a new report titled the Project Prioritization Report. See "FRTIB Project Prioritization Report" (attached). According to Ms. Wilder, this report is going to be a quarterly snapshot of the projects currently underway at the Agency. Ms. Wilder began by discussing the role of the Project Advisory Committee (PAC) that is responsible for looking at projects, prioritizing them, and making recommendations to the Executive Leadership Council (ELC) regarding them. Ms. Wilder then discussed the Agency's project approval process.

Ms. Wilder reviewed the report explaining that the Agency gives each project a priority score. Ms. Wilder also explained that the report lists all ongoing projects in the Agency, and which offices are involved in the project. Ms. Wilder concluded by informing the Board that this report is designed to give the Board an idea of the level of activity taking place at the Agency and how projects are governed.

Member Jasien asked how this report relates to the budget. Ms. Wilder explained that she works closely with the Chief Financial Officer ensuring that projects and strategic initiatives are included in the budget.

Mr. Ahuja reported on the results of the Enterprise Risk Assessment. See "Overview: Agency Entity-Wide Risk Assessment" (attached). Mr. Ahuja explained that the risk assessment team is responsible for conducting risk assessment and evaluating the key business processes to identify risks with the intention of implementing corrective actions to close the gaps noted. He also stated that this team is supplemented by an internal controls team and an Anti-Fraud team. Mr. Ahuja described the newly formed internal audit team, headed by Derek Richardson, that is responsible for performing independent audits and reporting directly to the Executive Director and to the Board.

The risk assessment team identified fourteen risks and categorized seven as medium and seven as medium/high. The fourteen risks were mapped against the Agency's goals and mission. Four risks were associated with Goal No. 2: change management, business continuity planning, human capital management, and the Personnel/Physical Security Program. Nine risks were associated with Goal No. 3: information technology security, risk management maturation, system integration, policies and procedures, contractor processes oversight, supply chain vendor health,
procurement, project management, and resource planning. One risk was associated with Goal No. 4: Congressional mandates.

Member Jasien asked if any risks were associated with Goal No. 1 (We help people retire with dignity). Mr. Ahuja stated that although none of the risks that surfaced in this risk assessment appear to be directly associated to Goal 1, these risks do have an indirect co-relationship to Goal 1. He further explained that not mitigating these risks could negatively impact our daily operations which then would ultimately affect our ability to achieve Goal 1.

Mr. Ahuja continued the presentation stating that he hopes to further integrate the risk assessment function with Agency operations so that the Agency could have a more mature process to proactively mitigate risks that aligns with global best practices.

7. **Adjourn.**

On a vote taken by the Chairman, the members closed the meeting at 10:00 a.m. for executive session.

At 11:20 a.m., upon completion of the executive session, the members reconvened the open portion of the meeting.

Whereupon, there being no further business, the following motion was made, seconded, and adopted without objection and Chairman Kennedy adjourned the meeting at 11:20 a.m.
