FY21 FISMA Audit Recommendations	4-7

FY 2021 FISMA Audit Results

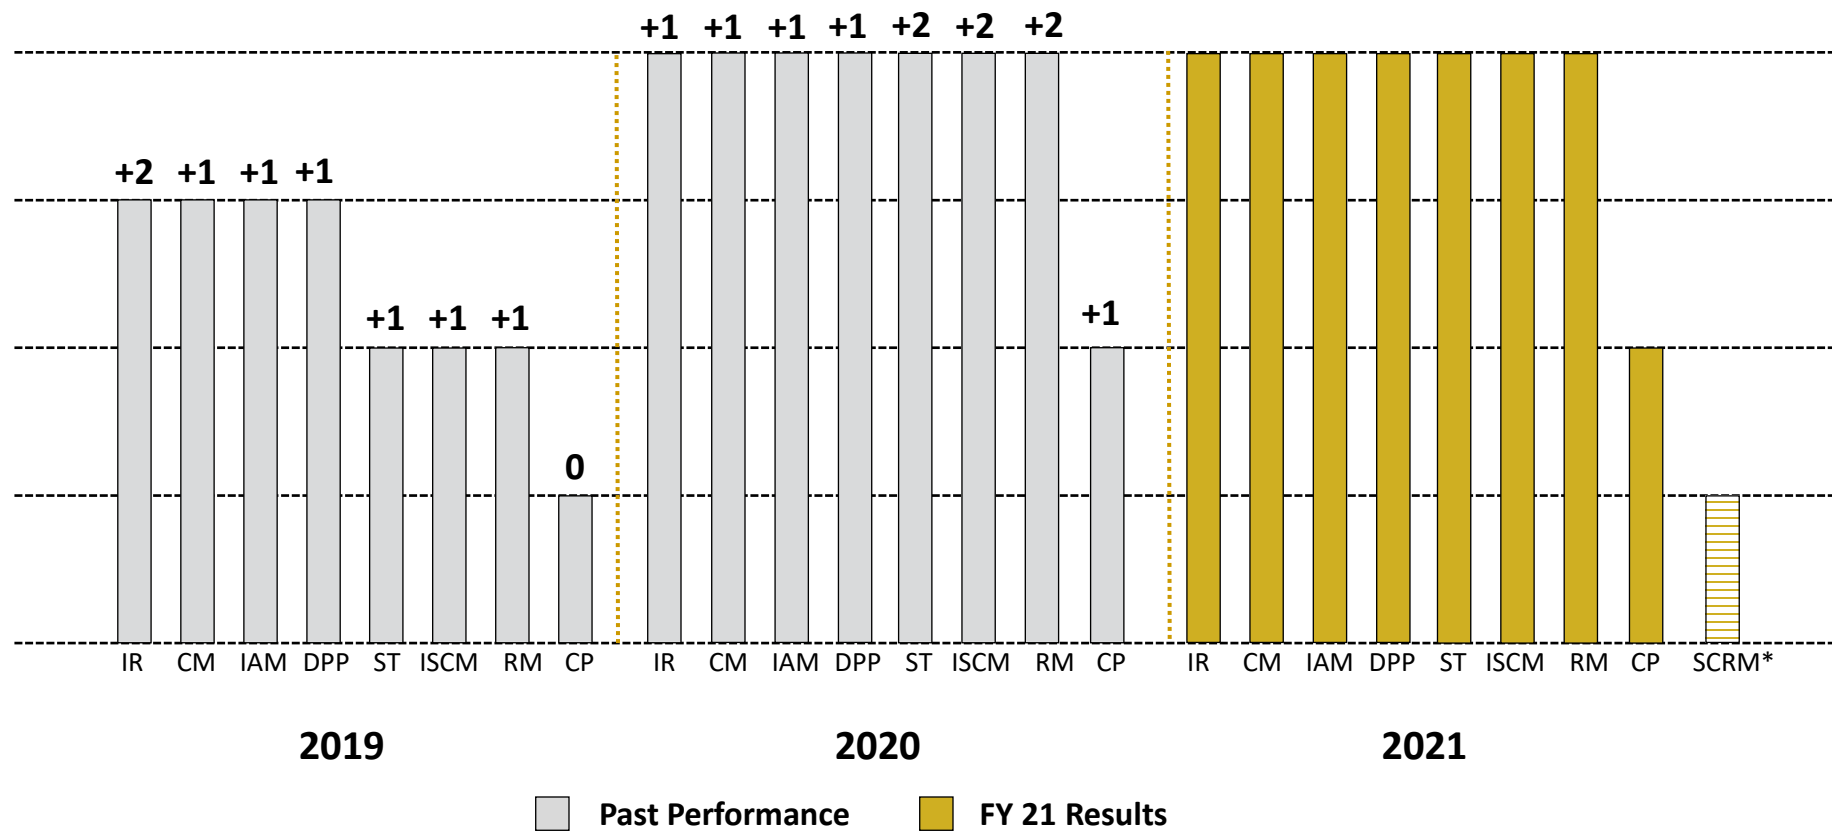

The below table outlines the audit results for the FY21 FISMA Audit.

Level 4: Managed and Measureable

Level 3: Consistently Implemented

Level 2: Defined

Level 1: Ad-hoc

#1 Inventory of Data Breaches

Develop a standard data elements/taxonomy to maintain a complete and accurate population of data breaches

CURRENT

Manually tracking breaches in spreadsheet

No consistent language used for similar events

IN DEVELOPMENT

Developing breach desktop guide which will capture additional details

Will include taxonomy of events / language to use

IN DEVELOPMENT

Collaborating with Converge (new record keeper) to finalize taxonomy

Will update breach desktop guide to include final taxonomy

COMPLETED

#2 Required Training Completion

Implement a penalty table to ensure users complete required training in a timely manner

IMPLEMENTED

Effective October 1, 2021, FRTIB implemented penalty table for those who repeatedly fail phishing exercises

Escalation for those who click on phishing links

#3 Process Health Metrics (PHM) Data Quality

Develop additional data validation processes to ensure manually tracked metrics are captured and recorded accurately within PHM

IMPLEMENTED

Enhanced data quality review process ahead of each dashboard publication

Distributing screenshots to each stakeholder for secondary review and validation

Second manager review

IMPLEMENTED

Quarterly deep dive of each domain to validate continued accuracy month over month

IN DEVELOPMENT

Continuing to evolve cybersecurity metrics program in collaboration with Converge

COMPLETED

#4 Contingency Planning in a Managed Service Environment

Update existing contingency planning policies, procedures and processes to account for a third-party managed systems

IMPLEMENTED

Updated annual contingency planning training to include third-party managed systems

IMPLEMENTED

Conducted 5 tabletop contingency exercises, covering High Value Assets (HVAs) and cloud systems

IMPLEMENTED

Conducted review of Managed Service Provider Contingency Plans to evaluate how they interconnect with Agency Contingency Plans
